Dear Salman

Thank you for taking the time to talk with us last week. We were very impressed with your resume, and would like to invite you for a second interview. The interview will take place on site here in Umeå. We believe that this is important and a great opportunity for both of us to get the feel for each other as potential colleagues and for you to see the office and meet other colleagues we are closely interacting with. Would it be convenient for you to be here either:

Monday the 26th of May at 14.00 or
Tuesday the 27th of May at 13.00

For this interview we would like you to present a project you have been working on, that you think best showcases your skills suited for this position. It can be any project, work related or a project you have been working on on the side. If you don't have any projects that you are allowed to show, then a presentation where we can see your skill set will be just fine. The presentation does not have to be long, just so we can get a feel for your skills.

In preparation for the second interview, we would like you to provide us with **1-2 reference persons** that we can contact. It can be a manager, a co-worker, or someone else that you feel has a good understanding of your work. Preferable someone you have interacted with in the last few years.

Please let us know if you are still interested in this position, and whether the dates for a second interview suits you.

Best regards
Nina and Jessica
